

COLLEGE OF MEDICINE CURRICULUM VITAE

Franklin Dexter, MD, PhD

Date of preparation: January 30, 2012

la. Educational history

Sc.B. Applied Mathematics-Biology with Honors, Brown University, 1985

M.S. Biomedical Engineering, Case Western Reserve University, 1988
Specialization in biomathematics

Ph.D. Biomedical Engineering, Case Western Reserve University, 1989
Specialization in biomathematics

M.D. Case Western Reserve University, 1990

Licensure: Permanent Iowa Medical License #29564, issued 10/5/93, expires 8/1/12

Resident Physician, Department of Anesthesia, University of Iowa, 1990-1993

Certification: American Board of Anesthesiology, issued 4/28/95

lb. Professional and academic positions held

Assistant Professor, Department of Anesthesia, University of Iowa, 1994 – 1997

Associate Professor with tenure, Department of Anesthesia, University of Iowa, 1997 – 2005

Professor with tenure, Department of Anesthesia, University of Iowa, 2005 – present

Director, Division of Management Consulting, 2001 – present

lc. Honors and awards

Academic Achievement Award in Biology and Medicine, Brown University, 1985

Rohn Truell Memorial Premium in Applied Mathematics, Brown University, 1985

Alpha Omega Alpha (Medical Honor Society), 1990

Association of University Anesthesiologists, 1997

Statistical consultant to FDA's Anesthesiology and Respiratory Therapy Devices Panel, 1997

Department of Nursing Quality Management Recognition Award, University of Iowa, 1998

Associate Editor of the journal *Anesthesiology*, 1999 – 2005

Advisory Board of *OR Manager*, 2000 – present

Paper Recognition [#57, #81, #92 below], American Association of Clinical Directors,
2001, 2003, 2004

Public Interest in Anesthesia Award, American Association of Nurse Anesthetists, 2004

“... to a person or group who has made a significant contribution regarding anesthesia safety,
quality of care or social and health issues in the field of anesthesia.”

Editorial board member of *Health Care Management Science*, 2006 – present

Mary Hanna Memorial Journalism Award, American Society of PeriAnesthesia Nursing, 2006

Section Editor for Economics, Education, and Policy, *Anesthesia & Analgesia*, 2006 – present

Statistical Editor, *Anesthesia & Analgesia*, 2010 – present

IIa. Teaching – student lectures

Student registered nurse anesthetists

Anesthesia residents

Operations Research for Surgical Services (see #148 and #149, below)

2004 × 1	2007 × 2	2010 × 3
2005 × 1	2008 × 2	2011 × 5
2006 × 1	2009 × 4	January, February, and August 2012 (planned)

IIIa. Peer-reviewed papers in operating room management and health services research

1. Dexter F, Tinker JH. Analysis of strategies to decrease post anesthesia care unit costs. *Anesthesiology* 82:94-101, 1995
2. Dexter F, Tinker JH. Comparisons between desflurane and isoflurane or propofol on time to following commands and time to discharge: a metaanalysis. *Anesthesiology* 83:77-82, 1995
3. Dexter F, Tinker JH. The cost efficacy of hypothetically eliminating adverse anesthetic outcomes from high, but neither low nor moderate, risk surgical operations. *Anesthesia & Analgesia* 81:939-944, 1995
4. Dexter F, Coffin S, Tinker JH. Decreases in anesthesia-controlled time cannot permit one additional surgical operation to be scheduled during the workday. *Anesthesia & Analgesia* 81:1263-1268, 1995
5. Dexter F. Application of prediction levels to operating room scheduling. *AORN Journal* 63:607-615, 1996
6. Dexter F. Application of cost-utility and quality-adjusted life years analyses to monitored anesthesia care for sedation only. *Journal of Clinical Anesthesia* 8:286-288, 1996
7. Dexter F, Pearson K, Griffiths DL, Jebson P. Surgical intensive care unit underutilization does not significantly discourage discharge. *Health Services Management Research* 9:238-242, 1996
8. Dexter F, Rittenmeyer H. Measuring productivity of the phase I postanesthesia care unit. *Journal of PeriAnesthesia Nursing* 12: 7-11, 1997
9. Dexter F, Rittenmeyer H. A statistical method for predicting postanesthesia care unit staffing needs. *AORN Journal* 65:947-957, 1997
10. Dexter F, Coffin S, Woodward J. Performance of anesthesia machines' devices that are not part of the Food and Drug Administration's daily checkout. *Journal of Clinical Monitoring* 13:171-179, 1997
11. Pecka SL, Dexter F. Anesthesia providers' interventions during cataract extraction under monitored anesthesia care. *Journal of the American Association of Nurse Anesthetists* 65:357-360, 1997
12. Dexter F, Rittenmeyer H. Quantification of phase I postanesthesia nursing activities in the phase II postanesthesia care unit. *Nursing Outlook* 45:86-88, 1997
13. Dexter F, Aker J, Wright WA. Development of a measure of patient satisfaction with monitored anesthesia care: the Iowa Satisfaction with Anesthesia Scale. *Anesthesiology* 87:865-873, 1997

14. Dexter F, Lubarsky DA, Gilbert BC, Thompson C. A method to compare costs of drugs and supplies among anesthesia providers: a simple statistical method to reduce variations in cost due to variations in casemix. *Anesthesiology* 88:1350-1356, 1998
15. Macario A, Horne M, Goodman S, Dexter F, Heinen R, Brown B. The effect of a perioperative clinical pathway for knee replacement surgery on hospital costs. *Anesthesia & Analgesia* 86:978-984, 1998
16. Ludington ES, Dexter F. Statistical analysis of total labor pain using the visual analog scale and application to studies of analgesic effectiveness during childbirth. *Anesthesia & Analgesia* 87; 723-727, 1998
17. Dexter F. Regional anesthesia does not significantly change surgical time versus general anesthesia - a meta-analysis of randomized studies. *Regional Anesthesia & Pain Management* 23:439-443, 1998
18. Dexter F, Macario A, Cerone SM. Hospital profitability for a surgeon's common procedures predicts the surgeon's overall profitability for the hospital. *Journal of Clinical Anesthesia* 10:457-463, 1998
19. Zhou J, Dexter F. Method to assist in the scheduling of add-on surgical cases - upper prediction bounds for surgical case durations based on the log normal distribution. *Anesthesiology* 89:1228-1232, 1998
20. Dexter F, Macario A, Dexter EU. Computer simulation of changes in nursing productivity from early tracheal extubation of coronary artery bypass graft patients. *Journal of Clinical Anesthesia* 10:593-598, 1998
21. Dexter F, Penning DH, Lubarsky DA, DeLong E, Sanderson I, Gilbert BC, Bell E, Reves JG. Use of an automated anesthesia information system to determine reference limits for vital signs during cesarean section. *Journal of Clinical Monitoring and Computing* 14:491-498, 1998
22. Dexter F, Macario A. Decrease in case duration required to complete an additional case during regularly scheduled hours in an operating room suite - a computer simulation study. *Anesthesia & Analgesia* 88:72-76, 1999
23. Dexter F, Traub RD, Qian F. Comparison of statistical methods to predict the time to complete a series of surgical cases. *Journal of Clinical Monitoring and Computing* 15:45-51, 1999
24. Dexter F, Macario A, Manberg PJ, Lubarsky DA. Computer simulation to determine how rapid anesthetic recovery protocols to decrease the time for emergence or increase the phase I post anesthesia care unit bypass rate affect staffing of an ambulatory surgery center. *Anesthesia & Analgesia* 88:1053-1063, 1999
25. Dexter F, Macario A, Traub RD. Optimal sequencing of urgent surgical cases – scheduling cases using operating room information systems. *Journal of Clinical Monitoring and Computing* 15:153-162, 1999
26. Dexter F, Macario A, Traub RD, Hopwood M, Lubarsky DA. An operating room scheduling strategy to maximize the use of operating room block time. Computer simulation of patient scheduling and survey of patients' preferences for surgical waiting time. *Anesthesia & Analgesia* 89:7-20, 1999
27. Dexter F, Macario A, Lubarsky DA, Burns DD. Statistical method to evaluate management strategies to decrease variability in operating room utilization. Application of linear statistical modeling and Monte-Carlo simulation to operating room management. *Anesthesiology* 91: 262-274, 1999

28. Dexter F. Design of appointment systems for preanesthesia evaluation clinics to minimize patient waiting times: a review of computer simulation and patient survey studies. *Anesthesia & Analgesia* 89: 925-931, 1999
29. Dexter F, Macario A, O'Neill L. A strategy for deciding operating room assignments for second-shift anesthetists. *Anesthesia & Analgesia* 89: 920-924, 1999
30. Macario A, Glenn D, Dexter F. What can the postanesthesia care unit manager do to decrease costs in the PACU? *Journal of Perianesthesia Nursing* 14:284-293, 1999
31. Dexter F, Macario A, Traub RD. Which algorithm for scheduling add-on elective cases maximizes operating room utilization? Use of bin packing algorithms and fuzzy constraints in operating room management. *Anesthesiology* 91:1491-1500, 1999
32. Dexter F, Macario A, Qian F, Traub RD. Forecasting surgical groups' total hours of elective cases for allocation of block time. Application of time series analysis to operating room management. *Anesthesiology* 91:1501-1508, 1999
33. Macario A, Dexter F. Estimating the duration of a case when the surgeon has not recently performed the procedure at the surgical suite. *Anesthesia & Analgesia* 89:1241-1245, 1999
34. Zhou J, Dexter F, Macario A, Lubarsky DA. Relying solely on historical surgical times to estimate accurately future surgical times is unlikely to reduce the average length of time cases finish late. *Journal of Clinical Anesthesia* 11:601-605, 1999
35. Dexter F, Traub RD. Sequencing cases in operating rooms - predicting whether one surgical case will last longer than another. *Anesthesia & Analgesia* 90:975-979, 2000
36. Dexter F, Macario A, O'Neill L. Scheduling surgical cases into overflow block time - computer simulation of the effects of scheduling strategies on operating room labor costs. *Anesthesia & Analgesia* 90:980-986, 2000
37. Macario A, Dexter F. Effect of compensation and patient scheduling on operating room labor costs. *AORN Journal* 71:860-869, 2000
38. Dexter F, Macario A. What is the relative frequency of uncommon ambulatory surgery procedures in the United States with an anesthesia provider? *Anesthesia & Analgesia* 90:1343-1347, 2000
39. Dexter F, Traub RD. Statistical method for predicting when patients should be ready on the day of surgery. *Anesthesiology* 93:1107-1114, 2000
40. Epstein RH, Dexter F. Economic analysis of linking operating room scheduling and hospital material management information systems for just in time inventory control. *Anesthesia & Analgesia* 91:337-343, 2000
41. Dexter F, Macario A, Traub RD. Statistical method using operating room information system data to determine anesthetist weekend call requirements. *Journal of the American Association of Nurse Anesthetists* 68:21-26, 2000
42. Dexter F, Macario A, Traub RD. Enterprise-wide patient scheduling information systems to coordinate surgical clinic and operating room scheduling can impair operating room efficiency. *Anesthesia & Analgesia* 91:617-626, 2000
43. Dexter F. A strategy to decide whether to move the last case of the day in an operating room to another empty operating room to decrease overtime labor costs. *Anesthesia & Analgesia* 91:925-928, 2000
44. Dexter F, Traub RD. Determining staffing requirements for a second shift of anesthetists by graphical analysis of data from operating room information systems. *Journal of the American Association of Nurse Anesthetists* 68:31-36, 2000

45. Dexter F, Traub RD. The lack of systematic month-to-month variation over one-year periods in ambulatory surgery caseload - application to anesthesia staffing. *Anesthesia & Analgesia* 91:1426-1430, 2000
46. Dexter F, Gan TJ, Naguib M, Lubarsky DA. Cost identification analysis for succinylcholine. *Anesthesia & Analgesia* 92:693-699, 2001
47. Dexter F, Macario A. What is the optimal number of beds and occupancy to minimize nursing staffing costs in an obstetrical unit? *Canadian Journal of Anaesthesia* 48:295-301, 2001
48. Dexter F, Traub RD, Lebowitz P. Scheduling a delay between different surgeons' cases in the same operating room on the same day using upper prediction bounds for case durations. *Anesthesia & Analgesia* 92:943-946, 2001
49. Dexter F, Epstein RH, Penning DH. Statistical analysis of post-anesthesia care unit staffing at a surgical suite with frequent delays in admission from the operating room - a case study. *Anesthesia & Analgesia* 92:947-949, 2001
50. Dexter F, Thompson E. Relative value guide basic units in operating room scheduling to ensure compliance with anesthesia group policies for surgical procedures performed at each anesthetizing location. *Journal of the American Association of Nurse Anesthetists* 69:120-123, 2001
51. Dexter F, Traub RD, Penning DH. Statistical analysis by Monte-Carlo simulation of the impact of administrative and medical delays in discharge from the post-anesthesia care unit on total patient care hours. *Anesthesia & Analgesia* 92:1222-1225, 2001
52. Dexter F, Macario A, Lubarsky DA. Impact on revenue of increasing patient volume at surgical suites with relatively high operating room utilization. *Anesthesia & Analgesia* 92:1215-1221, 2001
53. Dexter F, Epstein RH, Marsh HM. Statistical analysis of weekday operating room anesthesia group staffing at nine independently managed surgical suites. *Anesthesia & Analgesia* 92:1493-1498, 2001
54. Macario A, Dexter F, Traub RD. Hospital profitability per hour of operating room time can vary among surgeons. *Anesthesia & Analgesia* 93:669-675, 2001
55. Dexter F, O'Neill L. Weekend operating room on-call staffing requirements. *AORN Journal* 74:666-671, 2001
56. Dexter F, Epstein RH. Reducing family members' anxiety while waiting on the day of surgery – systematic review of studies and implications of HIPAA health information privacy rules. *Journal of Clinical Anesthesia* 13:478-481, 2001
57. Dexter F, Blake JT, Penning DH, Lubarsky DA. Calculating a potential increase in hospital margin for elective surgery by changing operating room time allocations or increasing nursing staffing to permit completion of more cases: a case study. *Anesthesia & Analgesia* 94:138-142, 2002
58. Dexter F, Blake JT, Penning DH, Sloan B, Chung P, Lubarsky DA. Use of linear programming to estimate impact of changes in a hospital's operating room time allocation on perioperative variable costs. *Anesthesiology* 96:718-724, 2002
59. Blake JT, Dexter F, Donald J. Operating room managers' use of integer programming for assigning allocated block time to surgical groups: a case study. *Anesthesia & Analgesia* 94:143-148, 2002
60. Epstein RH, Dexter F. Statistical power analysis to estimate how many months of data are required to identify operating room staffing solutions to reduce labor costs and increase productivity. *Anesthesia & Analgesia* 94:640-643, 2002

61. Dexter F, Traub RD. How to schedule elective surgical cases into specific operating rooms to maximize the efficiency of use of operating room time. *Anesthesia & Analgesia* 94:933-942, 2002
62. Dexter F, Macario A. Changing allocations of operating room time from a system based on historical utilization to one where the aim is to schedule as many surgical cases as possible. *Anesthesia & Analgesia* 94:1272-1279, 2002
63. Dexter F, Traub RD, Fleisher LA, Rock P. What sample sizes are required for pooling surgical case durations among facilities to decrease the incidence of procedures with little historical data? *Anesthesiology* 96:1230-1236, 2002
64. Dexter F, Macario A, Penning DH, Chung P. Development of an appropriate list of surgical procedures of a specified maximum anesthetic complexity to be performed at a new ambulatory surgery facility. *Anesthesia & Analgesia* 95:78-82, 2002
65. Epstein RH, Dexter F, Traub RD. Statistical power analysis to estimate how many months of data are required to identify post anesthesia care unit staffing to minimize delays in admission from operating rooms. *Journal of PeriAnesthesia Nursing* 17:84-88, 2002
66. Dexter F, Lubarsky DA, Blake JT. Sampling error can significantly affect measured hospital financial performance of surgeons and resulting operating room time allocations. *Anesthesia & Analgesia* 95:184-188, 2002
67. Epstein RH, Dexter F. Uncertainty in knowing the operating rooms in which cases were performed has little effect on operating room allocations or efficiency. *Anesthesia & Analgesia* 95:1726-1730, 2002
68. Dexter F, Epstein RH, Marsh HM. Costs and risks of weekend anesthesia staffing at six independently managed surgical suites. *Journal of the American Association of Nurse Anesthetists* 70:377-381, 2002
69. Dexter F, Traub RD, Macario A. How to release allocated operating room time to increase efficiency. Predicting which surgical service will have the most under-utilized operating room time. *Anesthesia & Analgesia* 96:507-512, 2003
70. Dexter F, Epstein RH. Optimizing second shift OR staffing. *AORN Journal* 77:825-830, 2003
71. Abouleish AE, Dexter F, Epstein RH, Lubarsky DA, Whitten CW, Prough DS. Labor costs incurred by anesthesiology groups because of operating rooms not being allocated and cases not being scheduled to maximize operating room efficiency. *Anesthesia & Analgesia* 96:1109-1113, 2003
72. Dexter F, Traub RD, Macario A, Lubarsky DA. Operating room utilization alone is not an accurate metric for the allocation of operating room block time to individual surgeons with low caseloads. *Anesthesiology* 98:1243-1249, 2003
73. Dexter F, Smith TC, Tatman DJ, Macario A. Physicians' perceptions of minimum time that should be saved to move a surgical case from one operating room to another: internet-based survey of the Association of Anesthesia Clinical Directors' (AACD) members. *Journal of Clinical Anesthesia* 15:206-210, 2003
74. Dexter F, Ledolter J. Managing risk and expected financial return from selective expansion of operating room capacity. Mean-variance analysis of a hospital's portfolio of surgeons. *Anesthesia & Analgesia* 97:190-195, 2003
75. Dexter F, Wachtel RE, Yue JC. Use of discharge abstract databases to differentiate among pediatric hospitals based on operative procedures – Surgery in infants and young children in the State of Iowa. *Anesthesiology* 99:480-487, 2003
76. Dexter F, Abouleish AE, Epstein RH, Whitten CW, Lubarsky DA. Use of operating room information system data to predict the impact of reducing turnover times on staffing costs. *Anesthesia & Analgesia* 97:1119-1126, 2003

 Variability of extubation times, Baxter Healthcare, 2010
 Anesthesia and PACU analyses, Avera McKennan Hospital, 2010
 Anesthesia decision making and costs, St. Joseph Regional Medical Center, 2010
 Day of surgery decision making, Anesthetix Management, 2010
 OR management distance learning, Alabama Anesthesia of Huntsville, 2010
 Canadian pharmacoeconomics, Baxter Healthcare, 2010
 Anesthesiologists and unnecessary preoperative studies, SUNY Stony Brook, 2010
 Sugammadex outcomes research, Merck, 2010
 Anesthesia staffing and case duration prediction, St. Joseph Mercy – Ann Arbor, 2010
 Propofol and desflurane pharmacoeconomics, Baxter Healthcare, 2010
 Multihospital financial and operational analysis and benchmarking, Trinity Health, 2010
 OR management statistical analyses, Dept. of Veterans Affairs, 2010
 Trends in individual surgeons' workload, SUNY Upstate, 2010
 Esmolol pharmacoeconomics for supraventricular tachycardia, Baxter Healthcare, 2010
 European focused OR efficiency research, Merck, 2010
 Anesthesia staffing, Cleveland Clinic Anesthesia Institute, 2011
 Surgical operational assessment, Pennock Health Services, 2011
 Operations research for surgical services teaching, University of Miami, 2011
 Course and analysis for operations research in anesthesia, Medical College of Wisconsin, 2011
 Anesthesia staffing and changes in OR management, Borgess Health, 2011
 Operating room time cost accounting, Spacelabs Healthcare, 2011
 Anesthesia staffing education (course), Cleveland Clinic Anesthesia Institute, 2011
 Orthopedic operating room throughput, Massachusetts General Hospital, 2011
 Anesthesia and PACU assessment, Metro Health Hospital, 2011

IIIe. Extensive consultations for University of Iowa – total of 77

Fast-tracking coronary artery bypass graft patients, 1997-1998
 Strategy to decrease variability in OR schedule, 1997-1998
 Incentive programs to increase surgical productivity, 1997-1998
 Analysis of daily variation in OR workload, 1997-1998
 OR allocation from anesthesia billing data, 2001
 Anesthesia policy and procedures manual, 2001
 CalculatOR™ with OR & anesthesia data, 2001-2003
 Surgical workload throughout Iowa, 2002-2004
 Surgical length of stay impact on contribution margin, 2002
 Perioperative strategic and financial analysis, 2002-2004
 Impact of reducing turnovers on anesthesia costs, 2003
 Delays in PACU admission, 2003-2004
 Monitoring turnovers, cancellations, and waiting, 2004
 Leasing vs. purchasing capital surgical equipment, 2004
 MD & CRNA assignment and staffing on productivity, 2004
 Forecasting ECT workload one week in advance, 2004
 Ongoing assessment of strategic position, 2005
 Prediction bounds to improve calling for patients, 2005
 Costs & financial value from OR anesthesia services, 2005
 Pagers to notify staff of OR management decisions, 2005
 Otolaryngology strategic financial & market analysis, 2005
 Variation in OR efficiency and tardiness by surgeon, 2005
 Potential growth in surgical workload, 2005
 Training & monitoring afternoon/ weekend decisions, 2005
 Sequencing surgical cases by surgeon, 2005-2006
 Efficiency of use of endodontic clinic (dental) chairs, 2005
 Schedule preop AM of surgery increases efficiency, 2005
 Choosing patient fasting, NPO, and arrival times, 2005
 Forecasting holiday OR workload, 2006
 Checklists for operating room management, 2006
 Longitudinal assessment of surgical growth rate, 2006
 Self-scheduling of non-OR anesthesia procedures, 2006
 Automation of anesthesia staff assignment, 2006
 Off-line monitoring of enterprise-wide scheduling, 2006
 Forecasting OR workload the next workday, 2006
 Patient-centered RN administered sedation program, 2006
 Notification of patients for anesthesia, 2006
 Variability in durations of ambulatory procedures, 2007
 Operational and tactical monitoring, 2007
 Preference cards and relationship to case durations, 2007
 Expand vertically & open rooms when working late, 2007
 Real-time estimation of time to end of case, 2007
 Resident workload determined from billing data, 2008
 Growth in diagnostic imaging with anesthesia, 2008
 Anesthesia technician workload from AIMS, 2008
 Predicting cancellation on day of surgery, 2008
 CRNA nighttime workload, 2008
 Upper prediction bounds for ORs' end of workdays, 2008
 Patient arrival times to reduce space requirements, 2009
 Sequencing calling for patients upon surgical arrival, 2009
 Influence of case duration on patient outcome, 2009
 Phase I PACU staffing with trends in acuity, 2009

Coordinated CRNA staffing and staff scheduling, 2009
 Elective Saturday OR schedule, 2009
 Ambulatory surgery center assessment, 2009
 Pairing services for staff hiring and training, 2009
 OB anesthesia staffing, 2009
 CRNA starts of workday and revised shifts, 2009
 Monitoring surgical clinic cases in pipeline to OR, 2009
 AIMS screen simulation, 2010
 Regional nerve blocks with RN monitoring, 2010
 Patient satisfaction in ambulatory and tertiary surgical suites, 2010
 Impact of case duration on outcome, 2010
 Systems-based practice course using blood product data, 2010
 Monitoring ambulatory surgery neuropathy, 2011
 Nurse anesthetists and anesthesiologists per room ratios, 2011
 Preanesthesia evaluation clinic patient flow optimization, 2011
 Tracking turnovers with observers, 2011
 Software to recruit patients used for operating room scheduling, 2011
 CRNA evaluations of anesthesiologists, 2011
 Insurers' anesthesia duration and outcomes data, 2011
 Resident and faculty broad management training, 2011
 Anesthesia technicians and turnover times, 2011
 Monitoring clinicians' performance using peer evaluations, 2011
 Ambulatory surgery patients staying in hotels and coordination, 2011
 Pediatric surgery OR allocations and turnover times, 2011
 General surgery block time, 2012

III f. Brief external consultations – total of 16 for 8 companies and 7 hospitals

Burroughs Wellcome, PACU pharmacoeconomics, 1995
 Aspect Medical Systems, Cost analyses in anesthesia, 1996
 Beth Israel Deaconess Medical Center, OR objectives and cost reductions, 1999
 Luther Hospital, Strategies in OR scheduling to decrease costs, 1999
 MCP Hahnemann University, Methods of allocating OR time, 2001
 US Army TATRC, OR of the Future Strategy Forum, 2001
 Harlan Appalachian Regional Healthcare, Urgent case scheduling, 2002
 Virginia Mason Medical Center, OR decision making, 2003
 Phase 2 Consulting, Anesthesiology productivity, 2003-2004
 Frost and Sullivan, Perioperative cost accounting, 2004
 Skila, Fluid warming, 2004
 Boulder Community Hospital, Anesthesia group contracting, 2004
 Cline Davis & Mann, Pharmacoeconomics of a drug, 2006
 Health Advances, LLC, Economics of reducing OR time, 2007
 Mercy Health System, OR consolidation calculations, 2009
 MediViz, Observation of OR efficiency, 2010

III g. Brief consultations for University of Iowa – total of 72

Risk of OR fires during monitored anesthesia care, 1997
 Implementing clinical pathways in OB anesthesia, 1998
 Urinary retention with epidurals after nephrectomy, 1998
 Monitoring incidence of perioperative vocal cord injury, 1999
 Central sterilization layout to reduce time to get supplies, 1999
 Monitoring incidence of nerve block placement failures, 1999
 Surgical services material management, 1999
 Monitoring patients' pain during phlebotomy, 1999
 Software to integrate patient tracking with clinic scheduling, 2001

Department of Anesthesia, Secondary data analysis, 2001
Assist in purchasing anesthesia information system, 2001
Teaching conscious sedation to health care providers, 2002
University of Pittsburgh, Turnover time benchmarking nationwide, 2002
Impact of reducing surgical times on anesthesia group profitability, 2002
Customize scenarios for teaching OR management, 2002
Spinal surgery cost accounting and market potential, 2004
Improving methods of scheduling anesthesiologists on-line, 2004
Operating room robot scheduling, 2004
Forecasting costs of adjusting weekend CRNA staffing, 2004
Hyperbaric oxygen therapy finance and workload, 2004
Turnover times in Urology clinic, 2005
Monte-Carlo simulation for anesthesia scheduling, 2005
Measuring perioperative productivity, 2005
Forecasting future pediatric surgical workload, 2005
Holding urgent case for trauma activation, even if may not come to OR, 2005
Control charts for rapid feedback on biased OR times, 2006
Scheduling orthopedic and radiology clinic appointments, 2006
Forecasting earliest admission time to a hospital ward from PACU, 2006
Anesthesia group productivity by DEA, 2006
First case start delays by anesthesiologist & surgeon, 2006
11 PM to 7 AM anesthesia staffing, 2006
Statewide pediatric workload, 2007
University of Maryland, OR dashboards, 2007
University of Texas MD Anderson, OR policy manual, 2007
Urgent case sequencing by categories, 2007
Monitoring anesthesiologists' anesthesia controlled time, 2007
Anesthesia supply and drug costing, 2007
Anesthesia equipment budgeting, 2008
Automatic staff scheduling to facilitate staff assignment, 2008
Growth in pediatric anesthetics, 2008
Monitoring anesthesiologists' outcomes, 2009
Centralized versus distributed case scheduling, 2009
Day of surgery decision making, 2009
Volatile anesthetic usage, costs, and education, 2009
PACU length of stay, 2010
Non-operative time benchmarks, 2010
Role of specialty teams, 2010
Weekend cases running checklist, 2010
Anesthesia workload trends over past decade, 2010
Resident SICU staffing and staff scheduling, 2010
Influence of annual exam scores on time to board certification, 2010
Monitoring surgeons' case duration scheduling, 2010
Statistics of AIMS data for Ongoing Professional Performance Evaluation, 2010
Productivity program based on RVU's, 2010
Lean principles turnover time reduction, 2011
Academic, private differences and reimbursement, 2011
Forecasting long term growth and numbers of first case starts, 2011
Infection monitoring and cause survey, 2011
Anesthesia group metrics tied to financial support, 2011
Entropy monitoring to reduce variability in emergence time, 2011
Economic value of comprehensive teamwork training program, 2011
Quantifying value of anesthesia ambulatory clinical pathways, 2011
Assessing resident learning in critical care, 2011
Survey design for information system implementation, 2011

Study of obstetrical nausea and vomiting, 2011
 Determinants of patient satisfaction with ambulatory surgery, 2011
 Staff (product) mix analyses for cost minimization, 2011
 Operating room infection control monitoring, 2011
 Monitoring surgical durations among facilities, 2011
 Engineering studies in anesthesia departments, 2011
 Economics and development of clinical trials class, 2012
 Moving cases to ambulatory surgery center, 2012

III h. Invited lectures – total of 135

Boston Children's Hospital, Harvard University, 1995, "Cerebral oxygenation during hypothermic cardiopulmonary bypass"
 University of Washington, 1996, "Cost analyses in anesthesia" and "How can we safely decrease costs of anesthesia? A review of scientific studies."
 Columbia University, 1996, "How can we safely decrease costs of anesthesia?" and "Cerebral oxygenation during profoundly hypothermic cardiopulmonary bypass"
 American Society of Extracorporeal Technology, 1996, "Cost savings from eliminating adverse outcomes from high-, but neither low- nor moderate- risk, surgical operations"
 Duke University, 1996, "How can we safely decrease costs of anesthesia? A review of scientific studies" and "Cerebral oxygenation during profoundly hypothermic cardiopulmonary bypass"
 University of Nebraska, 1997, "Cerebral oxygenation during hypothermic CPB" and "Cost analysis for anesthesia"
 Stanford University, 1997, "The Iowa Satisfaction with Anesthesia Scale" and "Cost research at the University of Iowa"
 Children's Hospital of the University of Pennsylvania, 1997, "Cerebral oxygenation during cardiopulmonary bypass" and "How can we safely decrease costs of anesthesia?"
 University of Alabama at Birmingham, 1997, "Perioperative health services research"
 Henry Ford Health System, 1997, "Costs saving in anesthesia" and "Operating room operations research"
 Iowa PeriAnesthesia Nursing Update, 1998, American Society of PeriAnesthesia Nursing Iowa Chapter, "PACU economics"
 Case Western Reserve University, 1998, "Cerebral oxygenation during hypothermic cardiopulmonary bypass"
 Cleveland Clinic Foundation, 1998, "Statistical analysis of surgical services information systems to optimize operating room utilization"
 Association of Anesthesia Clinical Directors, 1998, "Analysis of scheduling strategies to maximize operating room utilization"
 University of Iowa, Applied Mathematical and Computational Sciences, 1998, "Computer simulation to determine how new anesthetic drugs and monitors can impact staffing."
 Washington University, 1999, "How should patients be scheduled to maximize operating room utilization?"
 Stanford Perioperative Management Conference, 1999, "New strategies for maximizing anesthesia department reimbursement"
 Association of Anesthesia Clinical Directors, 1999, "Operating room scheduling strategies to maximize operating room utilization"
 Presbyterian Healthcare Services, Albuquerque, NM, 1999, "OR Management"
 New Mexico Society of Anesthesiologists, 1999, "Can new anesthetic drugs and monitors for ambulatory surgery decrease costs?"
 Organon, Inc., symposium at Post Graduate Assembly in Anesthesia, 1999, "Regaining control of the OR"
 Stanford University, 1999, "Future research in OR management"
 Association of Anesthesia Clinical Directors, 2000, "Patient scheduling to minimize operating room costs"
 OR Business Management Conference, 2000, "Operating room scheduling algorithms"

- Society for Ambulatory Anesthesia, 2000, "Cost containment advantages of various operating room scheduling paradigms"
- Iowa Association of Nurse Anesthetists, 2000, "Principles in purchasing operating room information systems"
- Southern Medical Association, 2000, "Efficient operating room scheduling – why patient scheduling matters financially"
- Society for Technology in Anesthesia, 2001, "Why you should buy an operating room information system & analyze the stored data in it"
- Fuqua School of Business, Duke University, 2001, "OR in the OR: management science in the surgical suite"
- American Association of Clinical Directors, 2001, "Operating room scheduling – what system is right for your surgical suite?"
- Johns Hopkins, Department of Anesthesiology and Critical Care Medicine, 2001, "Progress in OR management"
- Frontiers in Quantitative Biosciences Seminar, University of Iowa, 2001, "Biomathematics applied to operating room management"
- Jefferson Medical College, 2001, "Operating room management decision making: one by one"
- Philadelphia Society of Anesthesiologists, 2001, "Progress in the economics of perioperative practice"
- University of Iowa, Department of Pathology, 2001, "Advances in Planning Staffing for Medical & Surgical Procedures (e.g., phlebotomy)"
- Iowa Society of Anesthesiologists, 2001, "How to staff a surgical suite to maximize OR efficiency and the anesthesia group's profitability"
- CompuRecord™ Users Group Meeting Invited Speaker, 2001, "Using anesthesia information system data for assessing anesthesia & OR nursing staffing productivity"
- American Society of Anesthesiologist's Refresher Course, 2001, "Cost implications of various operating room scheduling strategies"
- Operating Room of the Future Strategy Forum member, 2001, Telemedicine and Advanced Technology Research Center, U.S. Army Medical Research and Materiel Command
- Post Graduate Assembly in Anesthesia, 2001, "Getting the most [financially] out of your information system"
- University of Miami, Department of Anesthesiology, 2002, "Advances in the science of operating room management"
- American Association of Clinical Directors, 2002, "Allocating OR time and scheduling cases at surgical suites that have open hours" and "...with fixed hours"
- Vanderbilt University, Department of Anesthesiology, 2002, "Allocating OR time and scheduling cases to maximize OR efficiency"
- VHA Upper Midwest, Joint Meeting of Materials Managers and OR Leaders, 2002, "New techniques in OR allocation and staffing"
- American Society of Anesthesiologist's Refresher Course, 2002, "Allocating operating room time & scheduling surgical cases at US hospitals"
- Society for Technology in Anesthesia, 2002, "The value of using electronic anesthesia information systems for operating room management"
- Cornell University, Department of Policy Analysis and Management, 2002, "Operating room utilization"
- State University of New York at Stony Brook, Department of Anesthesiology, 2003, "Understanding hospital and anesthesia group decision-making"
- Upstate Medical University, Department of Anesthesiology, 2003, "OR management decision-making to maximize OR efficiency"
- Mayo Clinic Refresher Symposium on Anesthesia and Perioperative Medicine, 2003, "How (really) to allocate OR time and schedule cases to maximize OR efficiency"
- American Association of Clinical Directors, 2003, "Combining OR information system and hospital financial data for strategic decision-making"
- University of Iowa, Department of Pediatrics, 2003, "Where infants, young children, and the very old undergo operative procedures in the State of Iowa"

Florida Society of Anesthesiologists' Annual Meeting, 2003, "How to use the data we collect to increase anesthesia group productivity"

VHA, Efficient medication use program: targeting medication costs in the perioperative environment, 2003, "Why focus on the perioperative environment?"

Beth Israel Deaconess Medical Center, Department of Anesthesia, 2003, "Linking economics of anesthesia and surgery with OR efficiency for good decision making"

Queen's College, Ontario, Department of Anaesthesiology, 2003, "Decision-making based on OR efficiency" and "Anesthetic drug costs"

American Society of Anesthesiologist's Refresher Course, 2003, "Allocating operating room time & scheduling surgical cases to maximize OR efficiency"

American Society of Anesthesiologist's Clinical Forum on Practice Management, 2003

Catholic University of Leuven, Belgium, 18th International Winter Anesthesiology Symposium, 2004, "Maximizing OR efficiency to reduce anesthesia costs"

Society for Technology in Anesthesia, 2004, "OR workflow and productivity: myths and goals"

American Association of Clinical Directors, 2004, "OR allocation and case scheduling" and "Strategic decision-making"

World Congress of Anaesthesia, Paris, 2004, "Valuing healthcare – quantifying costs and quality"

OR Business Manager Conference, 2004, "Modeling and personalities - Excel versus politics in strategic decision making" and "OR efficiency for staffing"

California Society of Anesthesiologists, 2004, Organizing "Practice management workshop," and teaching "OR allocation, case scheduling, and anesthesia staffing"

Ambulatory Surgery Centers conference, 2004, "Increasing profitability at ambulatory surgery centers"

Medical College of Georgia, 2004, "Making OR management decisions based on OR efficiency"

PanArab Conference of Anesthesia, Beirut, 2004, "OR staffing to increase OR efficiency" and "Perioperative tactical decision making for capacity expansion"

Saint Louis University, 2004, "Anesthesia drug costs"

VHA, CEO Workgroup – OR Task Force, 2004, "OR operational efficiency"

VHA Michigan OR Roundtable, 2004, "Increasing reimbursement relative to costs by selectively expanding surgical capacity"

American Association of Clinical Directors, 2005, "Allocation using OR efficiency for operational decisions" and "Allocation using contribution margin for tactical decisions"

Louisiana Association of Nurse Anesthetists, 2005, "Decision making on the day of surgery" and "CRNA Afternoon Staffing"

California Society of Anesthesiologists, 2005, "Management decisions using automated anesthesia record keepers"

Euroanaesthesia Congress, Vienna, 2005, "Scheduling surgical lists with anesthesia information management systems"

Children's Hospital Boston, 2005, "Summary of science of operating room management"

Stanford University, 2005, "Why and how OR management decisions can be made systematically based on OR efficiency"

Johns Hopkins University, 2005, "Anesthesia pharmacoeconomics"

VHA, Transformation of the OR, 2005, "Increasing flow of surgical patients to improve financial performance"

Brigham & Women's Hospital, Harvard, 2005, "Economics of reducing turnover times in the USA" and "Service-specific staffing and decision-making based on OR efficiency"

Child Health Corporation of America, Operating Room Directors Forum, 2005, "Determinants of staffing" and "Making good tactical (1 yr) financial decisions"

University of Texas MD Anderson, 2006, "Operating room scheduling and decision making on the day of surgery"

IFAC Symposium on Innovative Engineering Techniques in Healthcare Delivery, Saint-Etienne, France, 2006, "OR efficiency for staffing and scheduling before and on the day of surgery"

University of Miami School of Business, 2006, "How to make patient flow decisions in hospitals based on ordered priorities" and "Economics of reducing turnover times"

University Hospital of Basel, Switzerland, 26th Myron B. Laver International Postgraduate Course, 2006, "Tactical OR planning should not be based on utilization when resources are limited" and "Tactical OR planning: if it is incentive driven, use highly targeted incentives"

Detroit Receiving Hospital, Wayne State University, 2006, "Economics of turnover time reduction" and "Running ORs on afternoons, evenings, and weekends"

University of North Texas, 2006, "Healthcare cost reduction from small reductions in time"

American College of Surgeons, 2006, "The economics of operating room efficiency"

VHA Northeast Perioperative Network, 2007, "Making decisions on the day of surgery to increase OR efficiency" and "Matching staffing to workload to increase OR efficiency"

Asociación de Anestesia Analgesia y Reanimación de Buenos Aires, 2007, "Making management decisions on the day of surgery to increase OR efficiency" and "Matching staffing to workload and scheduling cases to increase OR efficiency"

Society for Ambulatory Anesthesia, 2007, "Is ambulatory surgery really cheaper"

International Anesthesia Research Society Panel on OR management, 2007, "Science of turnover times - the brief summary"

Association of University Anesthesiologists, 2007, "Entrepreneurial strength as a goal of an academic department – Operational consulting"

International Conference on Industrial Engineering and Systems Management, Beijing, 2007, One day workshop on OR management analysis

Massachusetts General Hospital, 2007, "Running the OR desk: an interactive session"

American Society of Anesthesiologists, 2007, "Do patients care about satisfaction with anesthesia or perioperative experience?" and "Does reducing PACU time reduce costs?"

EURO Working Group on OR Applied to Health Services, Saint-Etienne, France, 2007, "Making tactical (budget/financial) decisions for outpatient and inpatient surgery"

University of Cincinnati, Innovations in Healthcare Delivery 2007, "Targeted increases in patient flow – Lessons from operating room management"

Society for Technology in Anesthesia, 2008, "Improving productivity using anesthesia information management systems"

Syracuse University, College of Engineering, 2008, "Engineering (anesthesia & surgical) healthcare delivery"

Stanford University, School of Business, Operations, Information & Technology, 2008, "Empirical analyses to quantify reductions in cost from reducing non-value added time in ORs"

Society for Pediatric Anesthesia, 2008, "Turnover times for pediatric anesthesia"

Kansas State University, Industrial & Manufacturing Systems Engineering, 2008, "IE in healthcare: Lessons from studies of reducing setup/cleanup times in ORs"

University of Medicine and Dentistry of New Jersey, Anesthesiology, 2008, "Systems-based practice" and "Learning principles of OR management from studies of turnover times"

North Carolina State University, Industrial & Systems Engineering, 2008, "Multilevel statistical modeling and empirical rescheduling of jobs of stochastic durations to study strategies that could have reduced mean tardiness from due dates while satisfying unknown constraints"

International Conference on Productivity and Quality Research, University of Oulu, Finland, 2008, "Lessons from operating room management about when and how reducing setup and cleanup times can increase productivity" and "Seminar on OR Productivity"
